EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS   Remote
Full Stack Web Developer   Aug 2022 – Present

Leaderboard — A one-page app, where people can enter their name and score, and be displayed if they reached the top 10.
- Built with: JavaScript, HTML, CSS, and Webpack — Live Demo | GitHub Repo

Bookstore — A simple web app, where people can add books to a list, and remove them, with a randomized progress bar and a chapter number
- Built with: React & Redux, CSS, and Webpack — Live Demo | GitHub Repo

Catalog of my things — A console app that allows users to record different types of things they own: books, music albums, movies, and games. The project was created based on a UML class diagram. The data is stored in JSON files.
- Built with: Ruby and Postgres — GitHub Repo

RoR Blog app - An under-development app, that is going to be a fully functioning blog website. It will have all the classic functions and users will be able to interact with the website by adding posts, liking them, and commenting on them.
- Built with: Ruby on Rails - GitHub Repo

MICROVERSE   Remote
Peer Mentor (Volunteer)   Dec 2022– Apr 2023
- Mentored junior web developers, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and overall performance.
- Provided advice and tips on maintaining motivation to maintain longevity in the program.

CHC Europe Ltd.   Budapest, Hungary
Technical Support Engineer   Jan 2020 – Dec 2020
- Cleared the company's backlog of physical repairs.
- Updated and rehauled the storage system and its documentation.
- Participated in creating templates for testing and debugging new products.

EDUCATION

MICROVERSE   Aug 2022– Apr 2023
Remote Full Stack Web Development Program, Full Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

Aalborg University   Sept 2015– Jun 2017
MSc, Environmental Management and Sustainability Science
- Worked in teams creating semester projects.
- Co-created a sustainable business plan for a fashion company.
- Presented a Master's Thesis on Sustainable Agriculture in Hungary.

PERSONAL / INTERESTS

In my free time, I enjoy playing the guitar, watching tv-shows, and playing board games. A personal goal of mine is to set up passive income streams. I love reading about tech, social studies, and sustainability, and I love listening to music. I also enjoy a sip of quality whiskey every now and then.
